

Long holiday break stalls bribery case

By Jovanna S. Rodriguez

THE TWO MONTHS TO BE HELD BY the National Bureau of Investigation (NBI) probe allegations of the alleged bribe to the former National Bureaucracy Chief has been delayed by the long holiday break.

Mansion House is 100 years old

By Vincent Calabro and Dennis Calabro
Reporter for the Daily Inquirer

MANILA CITY—THE 100TH BIRTHDAY of Philippine President Ramon Magsaysay is being celebrated with a variety of events, but the most significant is the opening of the Magsaysay Mansion in Manila.

The mansion, which was the residence of the late president, is now open to the public. It is a beautiful building with a large garden and a swimming pool.

The mansion, which was the residence of the late president, is now open to the public. It is a beautiful building with a large garden and a swimming pool.

Israel rejects truce calls

World appeals for ceasefire as Israeli infantry set to move on Hamas

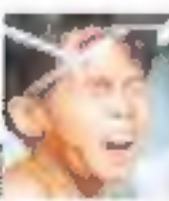

GAZA CITY—ISRAELI REJECTED WORLD APPEALS for a three-month ceasefire that would allow its troops to work in Gaza under the supervision of international monitors. Hamas rejected the offer for a fourth day and said it would not accept the offer.

Despite the deteriorating situation in Gaza, Israel rejected the offer. It said it would not accept the offer because it would allow Hamas to use the ceasefire to rearm itself.

Israel's rejection of the offer was seen as a sign that it was not willing to negotiate with Hamas. It said it would not accept the offer because it would allow Hamas to use the ceasefire to rearm itself.

World leaders and the United Nations have called for a ceasefire. They said that a ceasefire would allow the people of Gaza to live in peace and stability.

'White alert' raised for New Year's Eve

WHITE ALERT—A young boy in Manila has a white alert bandage on his forehead. The bandage has the words 'WHITE ALERT' written on it.

Father, 2 sons killed in strafing incident

By Joseph A. Lopez, Manila Bureau
A family of five was killed in a strafing incident in the Philippines on Tuesday, December 20, 2011, as a result of a military operation against a suspected militant hideout in the province of Marikina.

The family, consisting of a father, two sons and two daughters, were killed in the incident, which took place in the early morning hours of Tuesday.

The family was reportedly staying in a small house in the area, which was being searched by military forces as part of a campaign to eliminate militant hideouts in the region.

The father, who was 45 years old, and his two sons, aged 15 and 12, were killed in the incident. The two daughters, aged 10 and 8, were also injured.

The military forces, which were part of a joint operation involving the Philippine Army and the Philippine Air Force, were searching for a suspected militant hideout in the area.

40 years in prison for 'shabu' possession

By Maxine Rodriguez

A 40-year-old man was sentenced to 40 years in prison for possession of a large quantity of shabu (methamphetamine) in the Philippines on Tuesday, December 20, 2011.

The man, who was 40 years old, was found in possession of a large quantity of shabu in a small house in the area. He was arrested by police forces on Tuesday.

The man was charged with possession of a large quantity of shabu, which is a violation of the Philippine Anti-Drugs Act. He was found in possession of a large quantity of shabu in a small house in the area.

Temperature (°C)	Rate of Polymerization ($R_p \times 10^4$ mol/l.s)
0	0.0
20	0.0
40	0.1
50	0.4
60	0.9
70	0.6
80	0.4

The image is extremely faded and lacks detail. It appears to be a document page, possibly a map or a technical drawing, but the content is completely illegible. At the bottom right, there is a small, dark logo that resembles a stylized animal head, possibly a bull or a dog, which is a common logo for the National Archives and Records Administration (NARA).

Difficult year, but Filipinos will survive

88-176: *Refuge on the Middle
and Lower Coast*

The first step in the process of developing a new product is to identify a market need. This is often done through market research, which can be conducted in a variety of ways. One common method is to conduct surveys or focus groups with potential customers. Another method is to analyze sales data from existing products to identify trends and opportunities. Once a market need has been identified, the next step is to develop a concept for a new product that addresses that need. This typically involves brainstorming ideas and creating a prototype. The final step in the process is to test the product with a small group of customers to gather feedback and make any necessary adjustments before launching the product on a larger scale.

Figure 1 consists of two line graphs. The left graph plots growth rate (h⁻¹) on the y-axis (0 to 1.0) against temperature (°C) on the x-axis (10 to 40). It shows two curves: a control (solid line) and a mutant (dashed line). Both curves peak at 37°C, with the control reaching a higher peak (~0.9 h⁻¹) than the mutant (~0.7 h⁻¹). The right graph plots growth rate (h⁻¹) on the y-axis (0 to 1.0) against temperature (°C) on the x-axis (10 to 40). It shows two curves: a control (solid line) and a mutant (dashed line). Both curves peak at 37°C, with the control reaching a higher peak (~0.9 h⁻¹) than the mutant (~0.7 h⁻¹). The mutant curve is shifted to the right, indicating a higher optimal temperature for growth.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a small square). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as d . The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system, which records the hand's position and movement time.

Tagaytay-RP downs Indian squad, stays in the hunt

By [Name]

Tagaytay, Philippines

Tagaytay-RP won its first match in the Asian Cup, defeating India 1-0 in a closely contested match. The victory keeps the team in the hunt for a spot in the quarterfinals.

The match was played at the Tagaytay Sports Complex. Tagaytay-RP's captain, [Name], scored the winning goal in the 75th minute. India's goalkeeper, [Name], made several saves to keep the score level.

Tagaytay-RP will face [Team] in their next match. India will also play a match on the same day.

Cops foil robbery gang led by ex-Army man

Alleged leader killed, 1 nabbed after chase

By David S. ...

Manila, Philippines (PDI) — A robbery gang led by an alleged ex-Army man was foiled by police in a chase that ended with the leader's death and the capture of one of the suspects.

The gang, which was active in the Manila area, was reported to have been planning a major heist. However, their plans were disrupted when they were spotted by police during a routine patrol.

A fierce chase ensued through the city streets. The leader, who was reportedly a former member of the Philippine Army, was shot and killed during the pursuit. One of the other suspects was captured by police, while the remaining members of the gang fled the scene.

Police are currently working to identify the remaining suspects and determine the motives behind the gang's activities. The incident has raised concerns about the resurgence of organized crime in the Philippines.

Magallanes flyover snarls traffic after it was closed temporarily due to cracks

By ...

Manila, Philippines (PDI) — The Magallanes flyover in Manila has been closed temporarily due to cracks in the structure. The closure has caused significant traffic snarls in the area.

Authorities have warned drivers to avoid the flyover until repairs are completed. The estimated cost of the repairs is in the millions of pesos.

The flyover is a major thoroughfare in the city, and its closure has disrupted the daily commute for thousands of commuters. Traffic has been rerouted to other roads, but congestion remains heavy.

Engineers are currently assessing the extent of the damage and planning the necessary repairs. The closure is expected to last several weeks.

The closure of the Magallanes flyover has caused significant traffic snarls in the area. Commuters are advised to use alternative routes to avoid delays. The city government is working to expedite the repairs to minimize the disruption.

The incident highlights the need for regular maintenance and safety inspections of major infrastructure projects. The city government has pledged to ensure that such incidents are avoided in the future.

7 hurt in LPG tank explosion

By ...

Manila, Philippines (PDI) — Seven people were injured in an explosion involving a liquefied petroleum gas (LPG) tank. The incident occurred in a residential area, causing significant damage to the surrounding structures.

The explosion was heard from several blocks away. Witnesses reported that a large fireball was seen rising from the site of the explosion. The injured individuals are being treated at a nearby hospital.

Authorities are investigating the cause of the explosion. It is believed that a faulty valve or a leak in the tank may have triggered the incident. Safety checks for LPG tanks are being recommended for residents in the area.

The explosion occurred on a busy street in Manila. The injured individuals include three children and four adults. The damage to the surrounding buildings is extensive, with several structures sustaining structural damage.

The city government has ordered a temporary evacuation of the area surrounding the explosion site. The investigation is ongoing, and the results will be made public as soon as they are available.

Figure 1 displays the ^1H NMR spectra of poly(2-vinylpyridine) and poly(2-vinylpyridine-co-2-vinylpyridine). The figure is divided into two main sections, each showing a 1D ^1H NMR spectrum and a corresponding 2D COSY spectrum. The chemical structures of the polymers are shown above the spectra. The 1D spectra are labeled with '1D' and the 2D spectra are labeled with '2D'. The chemical structures are labeled with 'Poly(2-vinylpyridine)' and 'Poly(2-vinylpyridine-co-2-vinylpyridine)'.

RP SCHOLARS WIN Chinese students

BY 12:00 AM (PHILIPPINE STAR) 11/20/2010

MANILA (PHILIPPINE STAR) — A group of Chinese students won the 2010 Philippine Star Scholarship Competition, a contest that has been held annually since 1970.

The winners, who are all from the Philippines, were announced at a ceremony held at the Philippine Star Building in Manila on Monday.

The competition was held in two rounds. The first round was held in Manila, and the second round was held in Beijing, China.

The winners of the competition are:
1. **YANG, JIN** (University of the Philippines)
2. **YANG, JIN** (University of the Philippines)
3. **YANG, JIN** (University of the Philippines)

The winners will receive a scholarship worth \$10,000 per year for the next four years. They will also receive a round-trip airfare to the Philippines.

The Philippine Star Scholarship Competition is a contest that has been held annually since 1970. It is a contest that is open to all Chinese students who are currently studying in the Philippines.

DA program to jack up corn output

Sector to start exploring export markets in '09

By April 10, 2009

MANILA (PHILIPPINE STAR) — The Department of Agriculture (DA) is planning to launch a program to increase corn output and explore export markets in 2009.

The program, which is part of the DA's National Corn Competitiveness and Resilience Program (NCCRP), will focus on increasing the production of corn and exploring new export markets.

The DA is currently working on a plan to increase the production of corn by 10 percent in 2009. This will be achieved through a combination of measures, including the provision of technical assistance to farmers and the distribution of seeds and fertilizers.

The DA is also planning to explore new export markets for corn. This will be done through a series of trade missions and trade fairs.

The DA is confident that these measures will result in a significant increase in corn output and the exploration of new export markets.

'Optimistic' road users reveal what made their day in 2008

By [Name]

Even though the year 2008 was a tough one for many, it was also a year of optimism. Road users revealed what made their day in 2008, and the results were quite surprising. The most common answer was the new year, which brought a sense of hope and a fresh start. Many also mentioned the success of their businesses or the completion of a long-term project. The year was filled with challenges, but it was also a year of growth and achievement.
